**JOURNAL PROMPTS:** Before you start creating, take some time to think about any streets you have seen before that make you think of Spain or Europe. What colors come to mind, what scenes of beauty have you seen. What are the initial thoughts that come to mind when you think of this?

# The Creative Challenge

## **THE CHALLENGE: Create a street or alleyway scene inspired by Spain or a Mediterranean town**

Here are some ideas to get you started:

- ❖ Gather photos of streets and share with the group or create your own pinterest board/mood board.
- ❖ When you think of streets and alleyways in the med, what are the words, feelings and colours that speak to you? Cut these out of magazines or write them out and glue onto your image or just collage them onto a blank piece of paper. Perhaps pick out certain things that you associate with this.
- ❖ With your pencils or paints, create a sketch or painting inspired by this theme

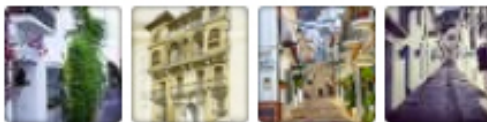

**I am excited to see your creations!**

### **MORE TO COME!**

Over the month, I will encourage us all to share our progress with the group using our different materials, so I hope these inspire you to explore further and give you some ideas. All images will be posted into the group here:
